Portable Document Format (PDF), standardized as ISO 32000, is a file format developed by Adobe in 1992 to present documents, including text formatting and	images, in a manner independent of application software, hardware, and operating systems. Based on the PostScript language, each PDF file encapsulates a	complete description of a fixed-layout flat document, including the text, fonts, vector graphics, raster images and other information needed to display it. PDF has its roots
